

How to install the Blackboard App in you Facebook account

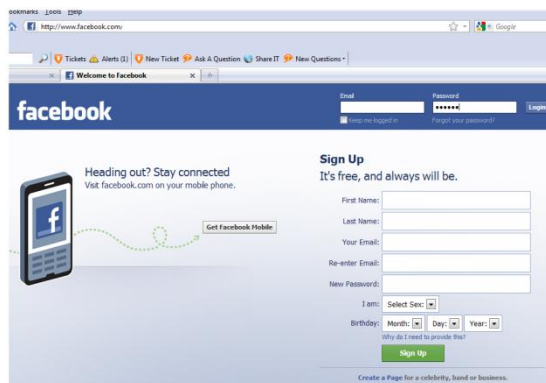

Blackboard Facebook App delivers Blackboard course information and updates through a Facebook interface to keep students up to date and engaged with their academic studies. Students can find out if they have a new assignment, grade, discussion board posting or forum post without leaving Facebook. With Blackboard Sync, students can also easily find classmates from their Blackboard course sites who are on Facebook, access their profiles to learn more about them and even join networks or form groups online or offline for collaboration and study. Facebook app will only advise the students that they have something new in there Blackboard course. When the student clicks on a link, via the Blackboard App in Facebook, this will open a new window and the student will need to log into the Blackboard system to view this information. No student credentials are saved or stored by the Blackboard App in Facebook.

Note: This document will help you active the Blackboard App in your Facebook account. If you have any questions concerning this app, please send them to support@coursenligne.net and one of our technicians will be glad to answer them.

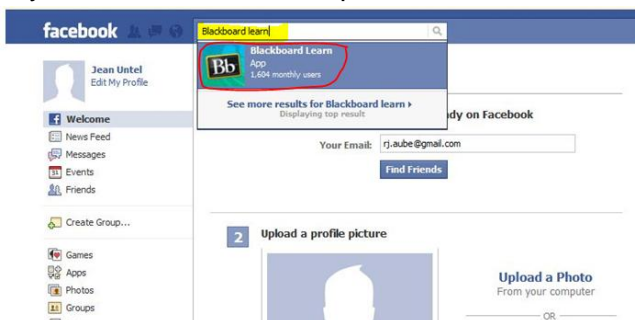

Instructions

1 – Log into your Facebook account (you must have a Facebook account to use this app)

<http://www.facebook.com>

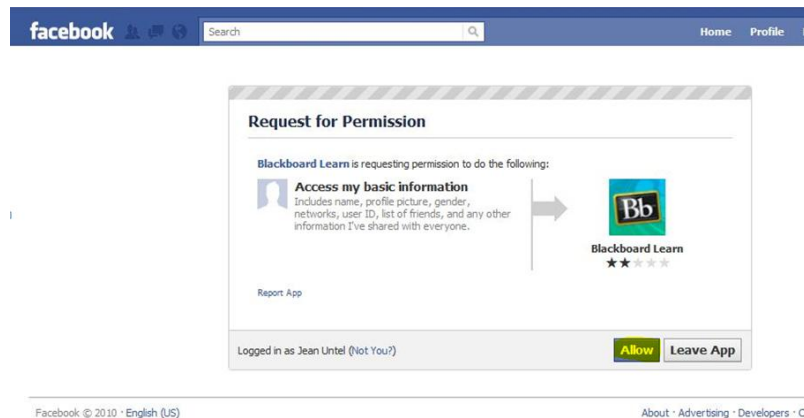

2 – In the search box, type “Blackboard learn”. You will notice a Blackboard Learn App appear on your screen. Click this option.

3 – A new window will open for this Blackboard App. You will need to click the “Go to App” button.

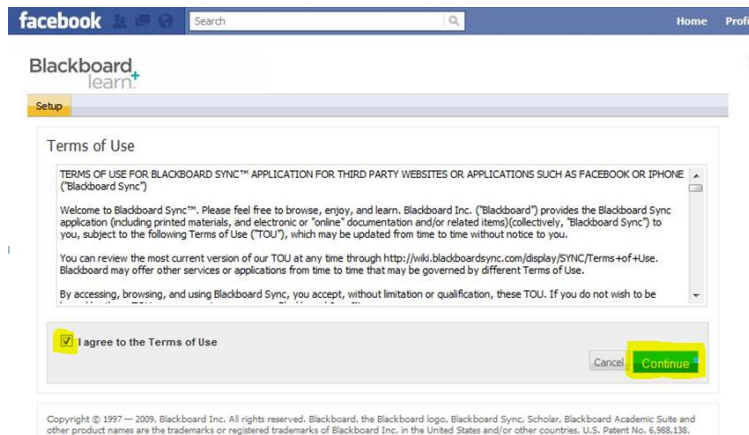

4 – One you click the “Go to App” button, a new window will pop-up. You will need to approve this app before Facebook will install it in your account. Click the “Allow” button.

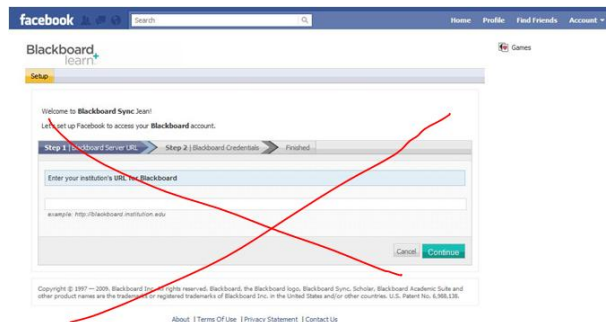

5 – The next screen is to let you invite your friends to use the Blackboard App. If you do this, your friends will need to have a Blackboard Account to make it work. If you have no one to invite, just click the “Skip This Step” button.

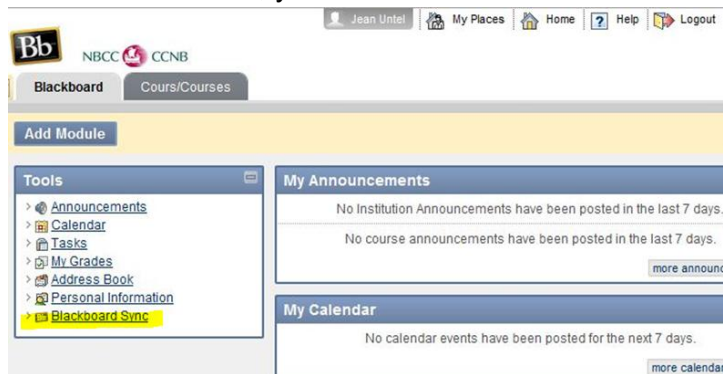

6 –If you want to use this app, you will need to read the terms of use, of this app and then place a checkmark in the “I agree to the Terms of Use” box. Then you need to click the “Continue” button.

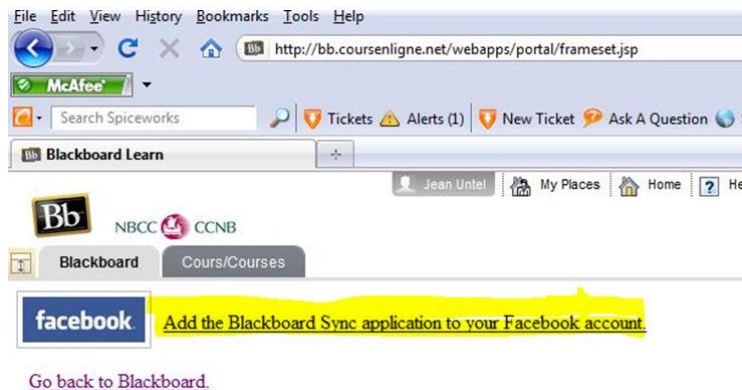

7 – Now you will see this screen. ****Do not continue the installation via your Facebook account. You will have completed the installation of the Blackboard App, via your Blackboard Account. You will need to close the Facebook page and go to <http://www.coursenligne.net> page and log into you Blackboard account.

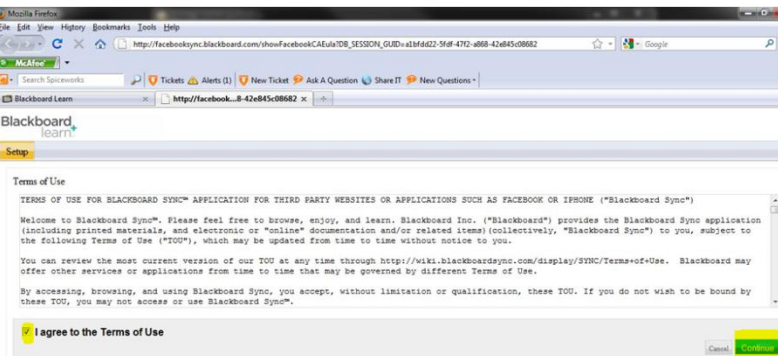

8 – One you are log into your Blackboard Account, you will need to go to the “Blackboard” tab. In the Tools section, you will need to click the “Blackboard Sync” link.

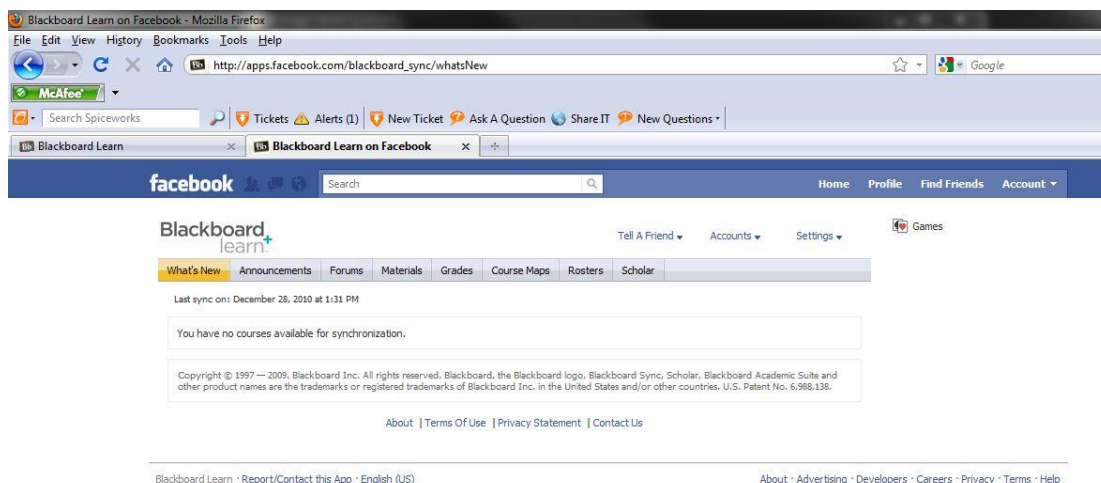

9 – A new window opens up; you will need to click on the “Add the Blackboard Sync application to your Facebook account” link.

10 – Again, you will need to agree to the Blackboard Terms of Use to be able to use this app. After reading the terms of use, you will need to place a checkmark in the “I agree to the Terms of Use” box and click the “Continue” button.

11 – Now the app will open in your Facebook account. You may need to log back into your Facebook Account. It may take up to a minute for Blackboard App to sync with your Blackboard courses.

12 – Also, you will find a shortcut link, for the Blackboard Learn, in your Facebook home page. It's on the left side and is called “Blackboard Learn”. You can also find it in the App section.
